Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 01 March 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

The amendment filed on March 01, 2005 has been entered and considered and an action on the merits follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 3, line 3, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Regarding claim 4, line 1, the claim is rejected for depending upon the cancelled claim 1. For the purpose of examination, the claim is treated as it is depended upon claim 3.

Regarding claim 4, lines 1-2, there is no antecedent basis for "said miscellaneous pieces" in the claim.

Regarding claim 4, lines 2-3, there is no antecedent basis for "the container body" in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-4, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Rodolico et al. (hereafter “Rodolico”) (US 5,115,736).

Regarding claim 3, Rodolico discloses a crusher comprising: an elongated container (1) with a top cover (5), a bottom cover (3), an attached strike plate (9), handles (8); miscellaneous bolts (15), nuts (10, 20); washers (16), and block spacers (11 and an element shown in the illustration below). Examiner interprets element (11) as one of the spacers because it is being arranged in the space between the rod (7) and the top cover (5), and the element as shown in the illustration below as the other block spacer because it is being arranged in the space between the block spacer (11) and the top cover (5). Rodolico discloses the container having an inner spacer (see below), thus a heavy granular material can be placed in the inner space of the container.

Regarding claim 4, the miscellaneous bolts and the handles can be removed and placed inside a body of the container. Each of the bolts can be removed by unscrewing the bolts from the respective handles and the handles can be removed out of the block spacer (11) after the respective bolts are removed.

Response to Arguments

Applicant's arguments filed on March 01, 2005 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3725

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 2,248,108 to Mihalko discloses crusher having a container (1), a bottom cover (2), a top cover (3), an attached strike plate (8), and handles (5, 9).
